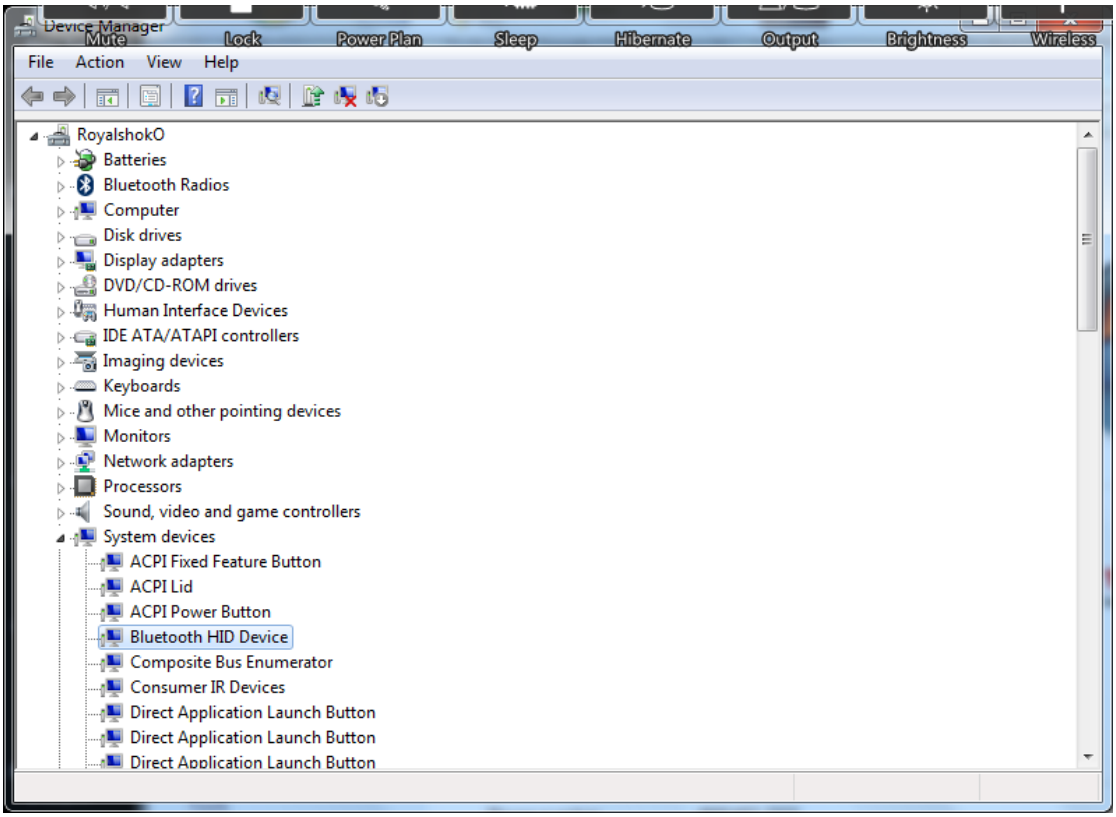
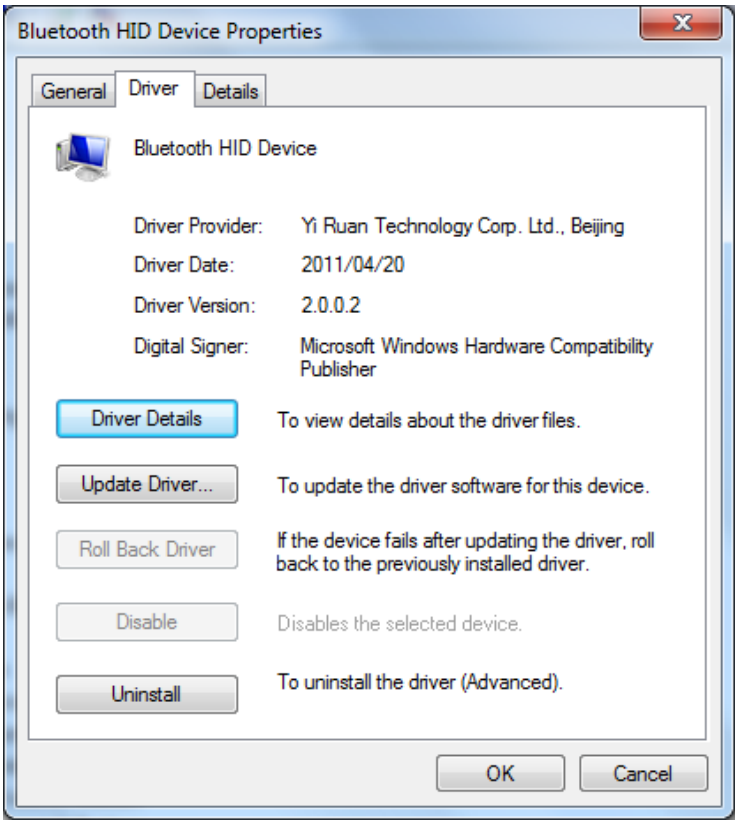
How to uninstall the wrong driver of Bluetooth HID Device from "Yi Ruan Technology Corp Ltd., Beijing" on Windows 7 OS?

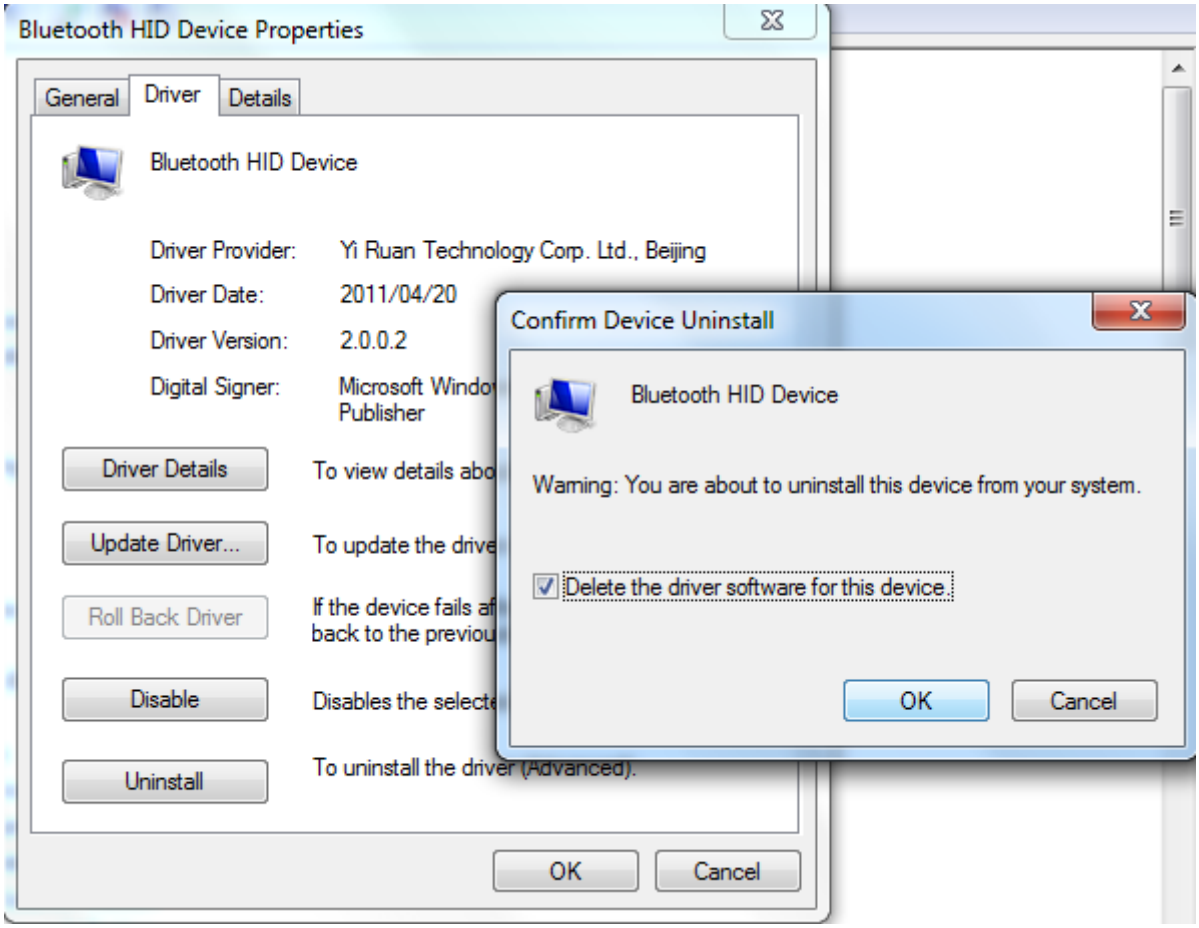
1. **Control Panel → Device Manager → System devices** → Right-click "**Bluetooth HID Device**" and go to "**Properties**"



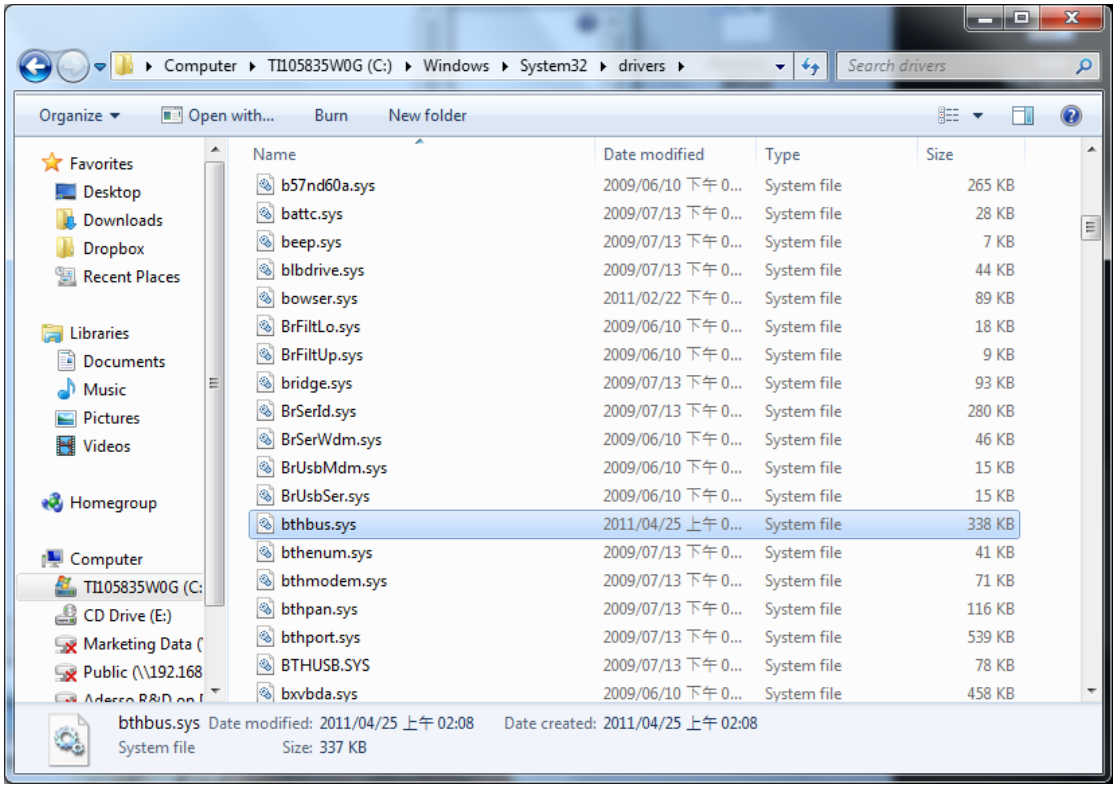
2. Click "**Uninstall**"



3. Check the box of “**Delete the driver software for this device**” and click OK.

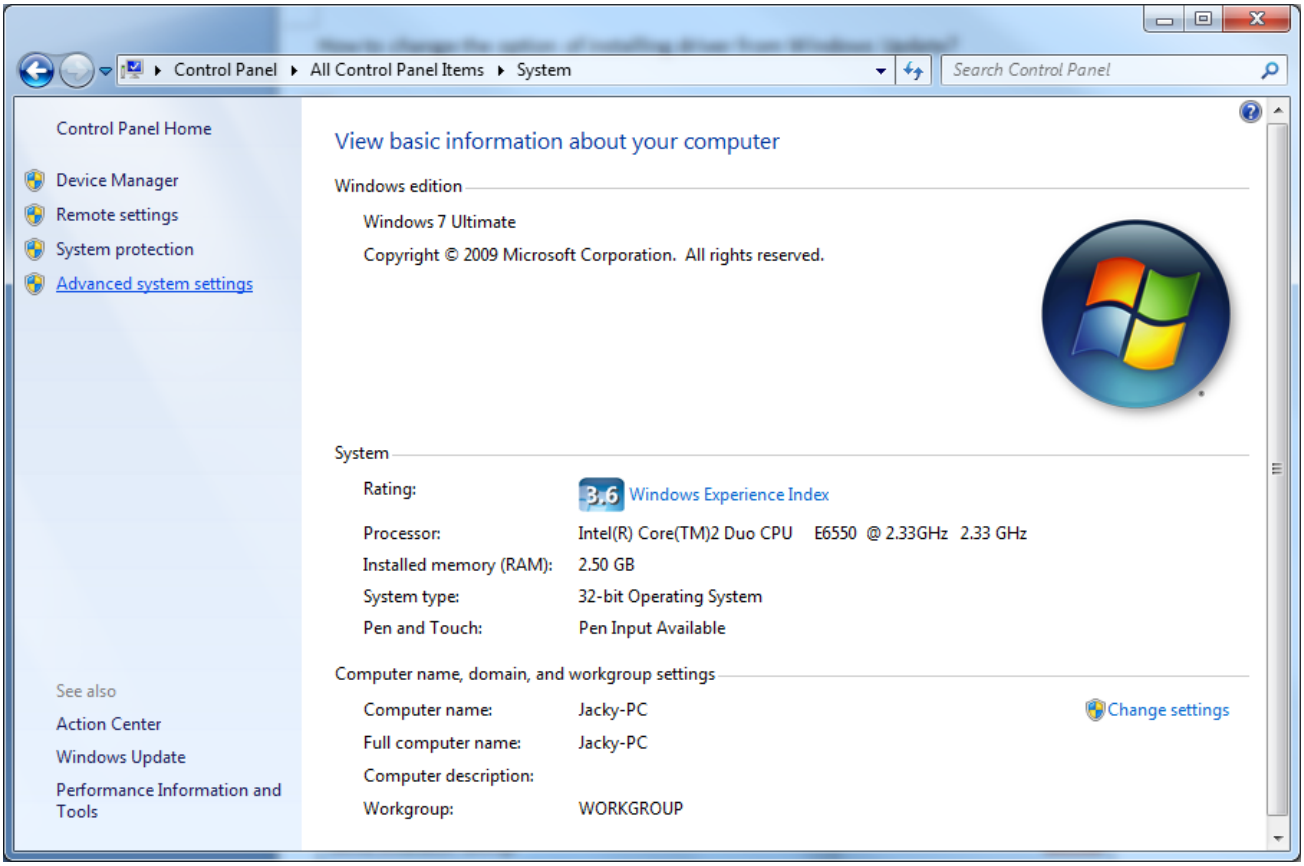


4. Delete the driver file “**bthbus.sys**” under this path, **C:\Windows\System32\drivers\bthbus.sys**

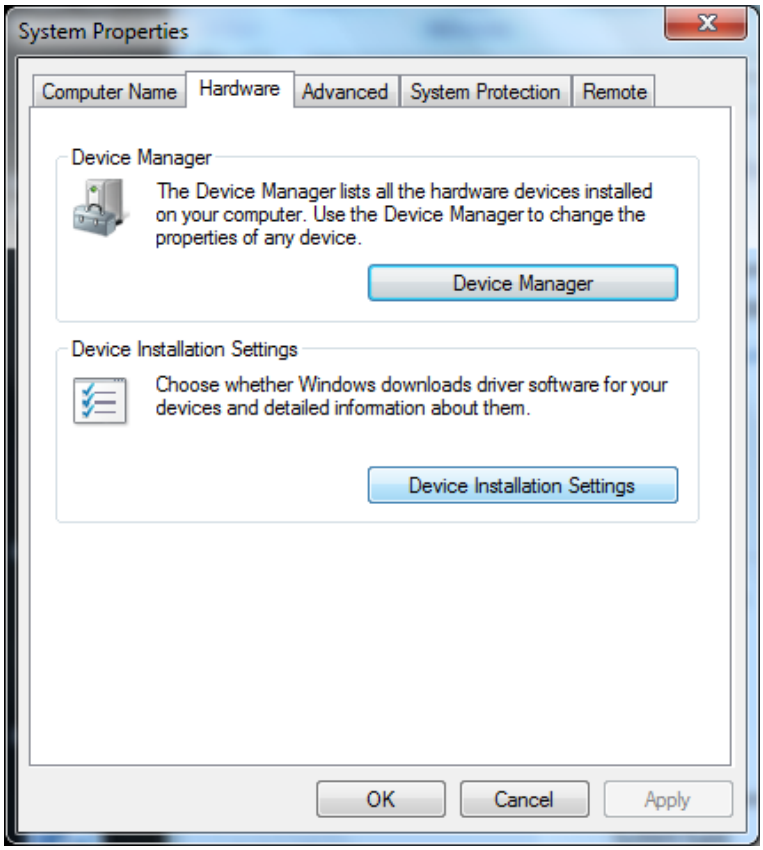


How to change the option of installing driver from Windows Update?

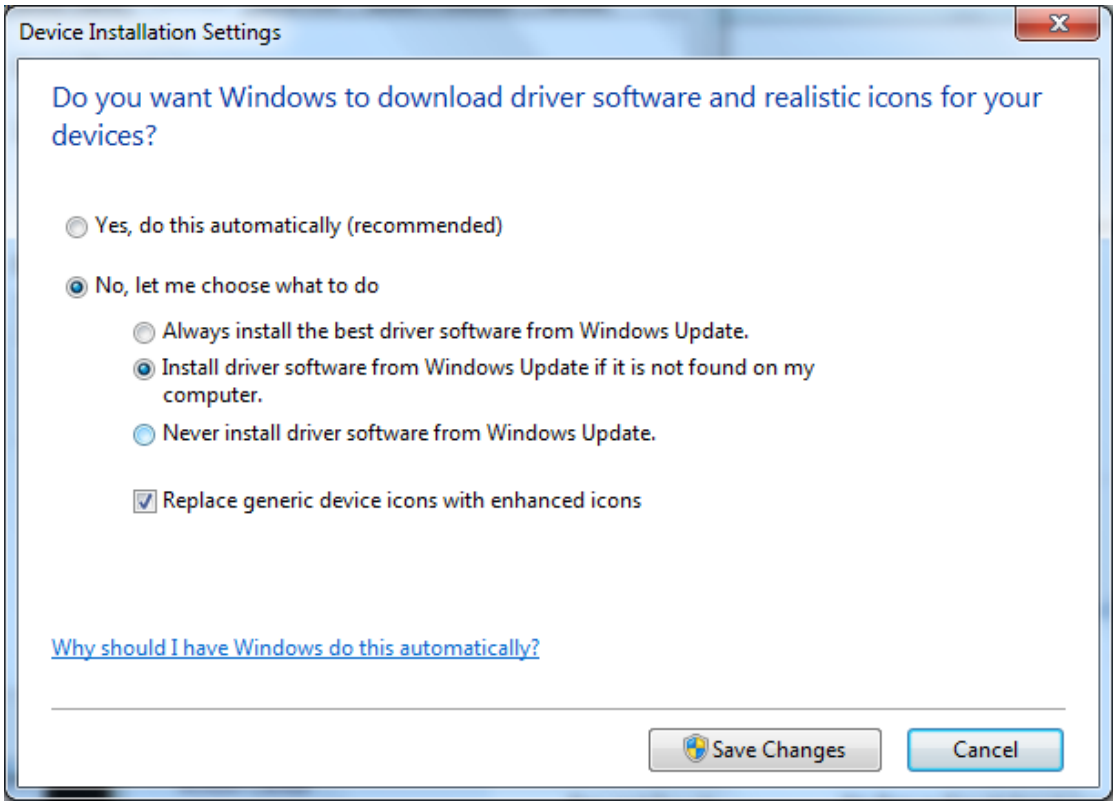
1. **Control Panel → System → Advanced system settings**



2. Tab **Hardware**, and click "**Device Installation Settings**".



3. Select "**No, let me choose what to do**" and "**Install driver software from Windows Update if it is not found on my computer.**"



Device Installation Settings
Do you want Windows to download driver software and realistic icons for your devices?
Yes, do this automatically (recommended)
No, let me choose what to do
Always install the best driver software from Windows Update.
Install driver software from Windows Update if it is not found on my computer.
Never install driver software from Windows Update.
Replace generic device icons with enhanced icons
Why should I have Windows do this automatically?

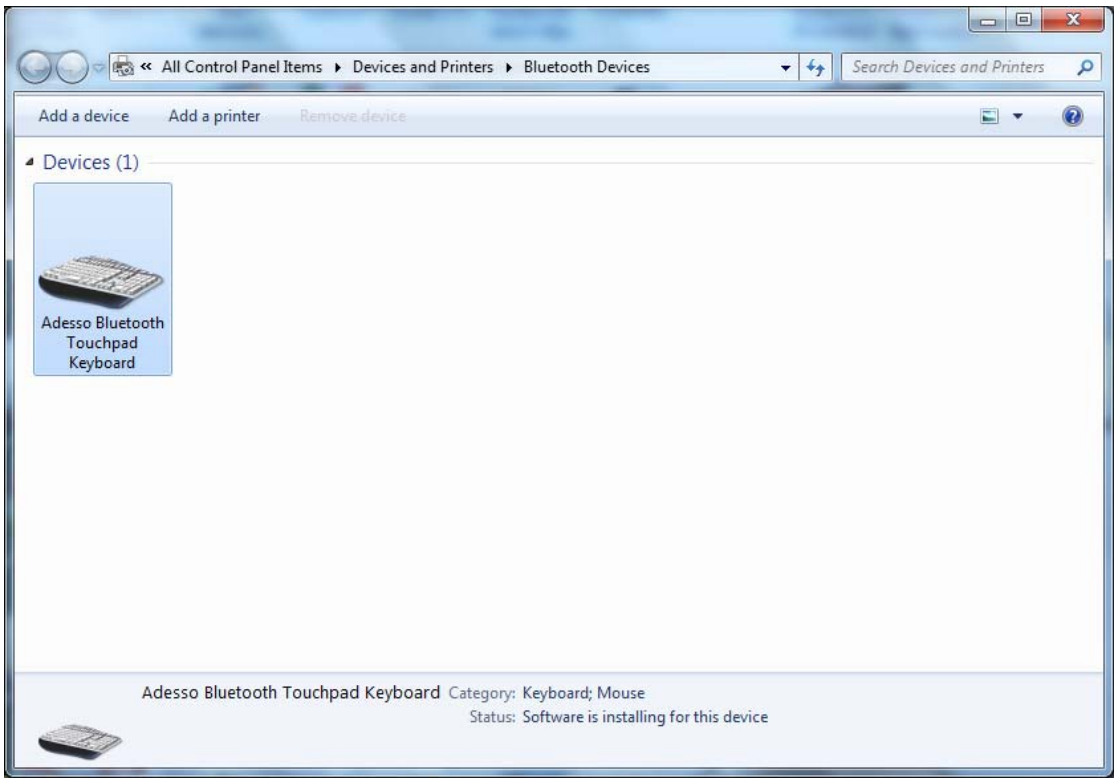
Remove and reactivate the Bluetooth Keyboard.

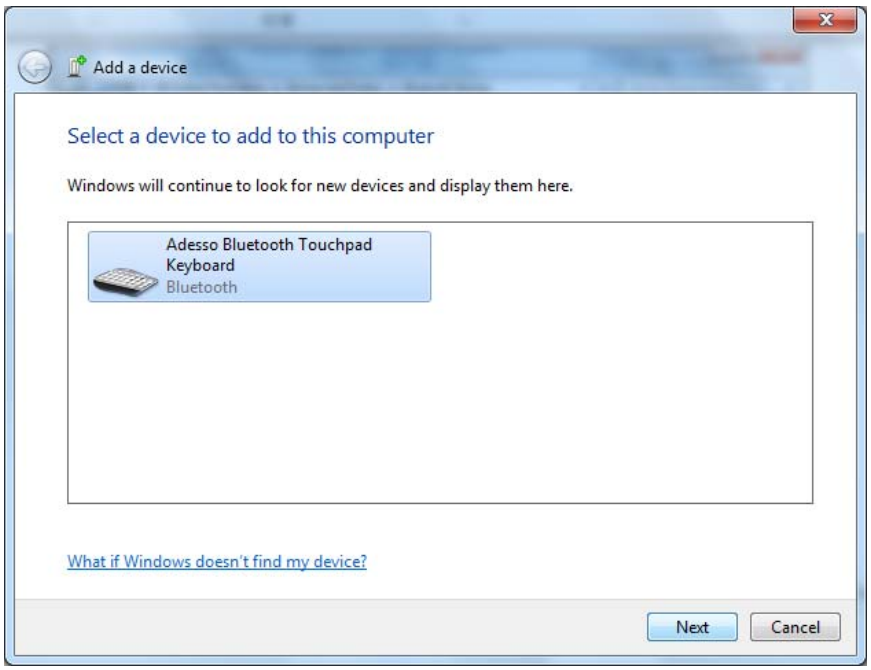
Now, you should be able to use the original driver from Microsoft. Please remove the existing Bluetooth keyboard and resynchronize the keyboard as below.

1. Right click the existing Adesso Bluetooth keyboard from the list and select "**Remove Device**"



All Control Panel Items ▸ Devices and Printers ▸ Bluetooth Devices
Search Devices and Printers
Add a device
Add a printer
Remove device
Devices (1)
Adesso Bluetooth Touchpad Keyboard
Adesso Bluetooth Touchpad Keyboard Category: Keyboard; Mouse
Status: Software is installing for this device

2. Then click “**Add a device**” for pairing the Adesso Bluetooth keyboard. Please refer the quick guide for details.



Add a device
Select a device to add to this computer
Windows will continue to look for new devices and display them here.
